WELCOME

Hi, I'm Pixel.

I'm the courier chameleon at Signature Postal. I change colors to match any brand, so gift season is my favorite time of year.

This guide is full of gifts your clients and your team will actually use, from 53¢ stocking stuffers to the brands people line up for. You'll also find holiday printing, mailboxes and the dates you need to ship in time.

See something you like? Scan its code, call the shop, or stop by on Main Street. I answer the phone, too.

Happy holidays, Pixel

How ordering works

1. **Pick your gift**
   Scan any code in this guide to see colors, sizes and every price break.
2. **Send your logo**
   We set it up and send you a proof to approve before anything is made.
3. **We handle the rest**
   Pick it up at the shop on Main Street, or we ship it to you.

Order early, relax later
Most gifts here take 1 to 10 working days to make once you approve the proof, plus shipping. Tell us your in-hand date and we'll plan backward from it.

Prices are per piece in U.S. dollars, read from our online catalog on October 22, 2026, and can change. "Starting at" is the price at the largest quantity break; each item also lists its minimum order and that price. Decoration, setup and shipping vary by item and are confirmed in your quote. Colors and imprint areas vary by item.
