Signs

Foam Core

3/16" Foam Core signs are **typically mounted on an easel for presentations but can also be used for any interior signs, posters, or displays.** Extremely lightweight, Foam Core is comprised of extruded polystyrene foam with clay-coated white paper facers. Foam Core Signs are best for one-time use, but they can last longer with proper care. This product is not waterproof.

Available Sizes:
6" x 6" to 46" x 36"

18 x 24 : \$26.00
24 x 36 : \$48.00
36 x 48 : \$100.00

PVC

3 mm (1/8") PVC signs are printed on a smooth, rigid plastic substrate **designed for long-term use.** More durable than foam core, PVC signs hold up well in busy interior environments and can also be used outdoors for short- to medium-term applications. Lightweight yet sturdy, PVC provides a clean, **professional appearance for wayfinding, informational signage, and displays.** This product is water-resistant but not intended for permanent outdoor exposure.

Available Sizes:
6" x 6" to 46" x 36"

Gator Board

Gator Board signs are 3/16" thick and provide **increased rigidity and durability** compared to Foam Core while remaining lightweight. **Constructed with a dense polystyrene core bonded between wood-fiber facers,** Gator Board offers excellent strength and resistance to warping. Printed with UV inks for vibrant, long-lasting color, it is suitable for both interior and exterior applications. **Common uses include retail signage, exhibits, displays, presentations, and menu boards.**

Available Sizes:
12" x 12" to 36" x 36"

Signs

Clear Acrylic

Clear Acrylic signs offer clear, glass-like brilliance and translucence in a sign that's much lighter and much more durable than glass. These 1/4" thick signs have high impact resistance, excellent transparency, and superior durability in all weather conditions.

Available Sizes:
6" x 6" to 46" x 36"

Styrene

Styrene signs are printed on a thin, semi-rigid matte white plastic substrate designed for lightweight signage. **This material offers enough flexibility to be used in curved or framed installations** while still providing a smooth, professional print surface. Suitable for indoor use and short-term outdoor applications, Styrene is **commonly used for point-of-purchase signage, informational and directional signs, and display inserts.**

Available Sizes:
6" x 6" to 48" x 120"

Aluminum Heavy Duty

Common uses include parking signs, traffic signs, factory and warehouse notifications, directional signage, and more.

Aluminum Dye Sub
